

Border Force

Project Hunter

World Border Security Congress Casablanca, Morocco

Jane Woolley, BF Assistant Director, Eurasia Region
21st March 2019

OFFICIAL

Border Force – What we do

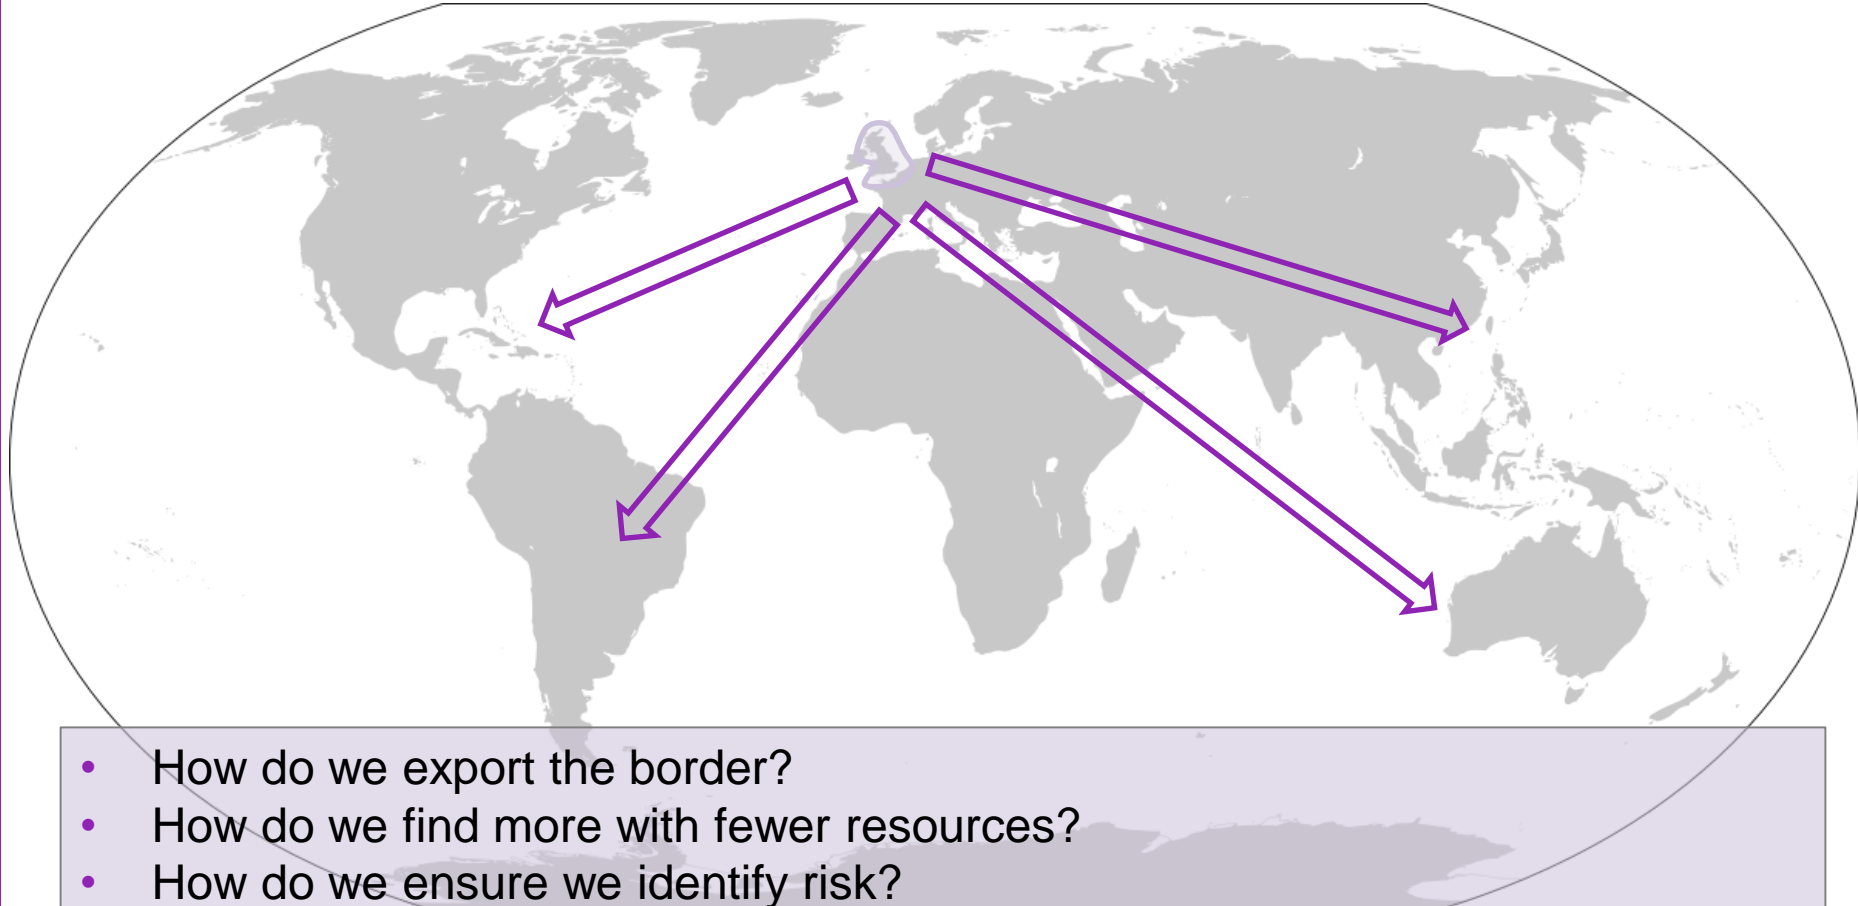

- Border Force is a law enforcement command within the Home Office.
- We secure the UK border by carrying out immigration and customs controls for people and goods entering the UK.

OFFICIAL

UK Targeting Strategy

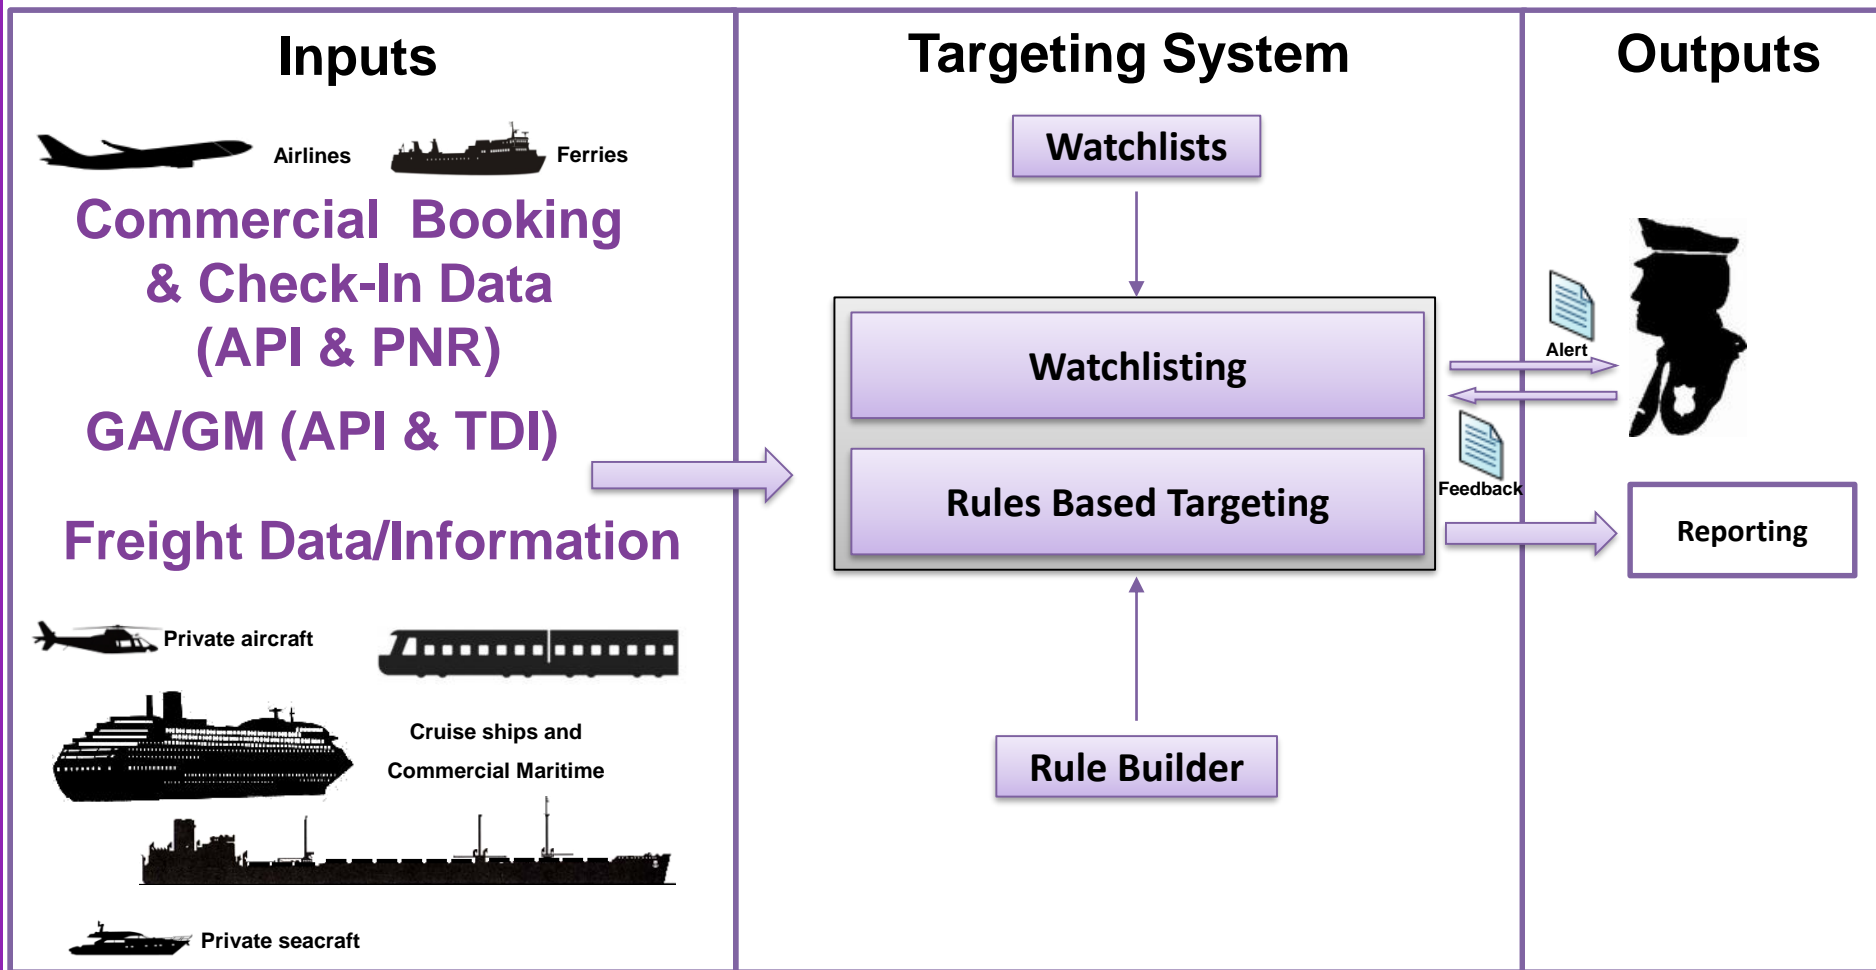

Export the Border

- How do we export the border?
- How do we find more with fewer resources?
- How do we ensure we identify risk?
- How do we prevent people and goods coming to UK which may cause harm?
- How do we facilitate passengers and trade whilst ensuring security?

Targeting

What is Project Hunter?

- Official Development Assistance (ODA) funded
- Border Force will work collaboratively to achieve the host country's long term targeting and border management strategies
- With host countries we will identify collaboration opportunities and support the delivery of training, equipment and expertise to support border intelligence and targeting – country specific approach
- Long term objective to network UK with targeting experts globally to share best practice, information and enable collaboration
- 3 Regional Managers across the programme

What can be delivered through Project Hunter?

Hardware/Software

Training

Legislation

Engagement with Private Industry

Analysis of Data

Operational Equipment

Best practice techniques
and advice for targeting

Example Project Hunter Collaboration Plan

Project Hunter Successes

Custom Intelligence Cell - Thailand

- Collaborating with Thai Customs Department
- 2 year project to centralise freight targeting
- 3 areas of collaboration: IT, training and processes
- Working side by side with Thai officers
- Developing best working practices to gather/process and share intelligence
- Developing targeting techniques using existing Thai system for container and air cargo modes
- Implemented new process for alerts
- Supporting new intelligence system, analysis of seizures and feeds targeting

Project Hunter Successes

Joint Regional Communications Centre

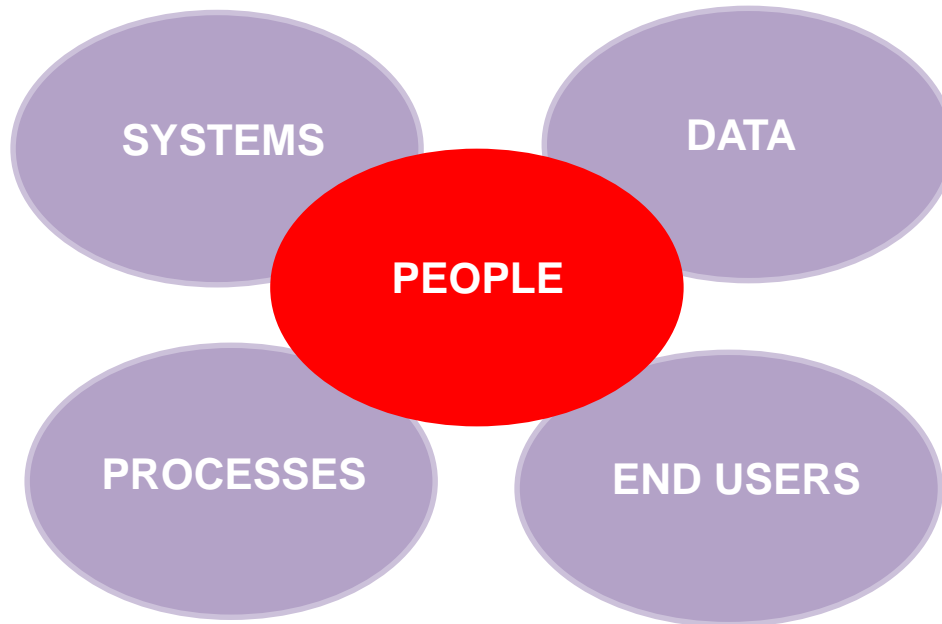

- Significant investment to upgrade IT infrastructure
- Process new and larger data sets for air and cruise passengers
- Considering air freight expansion
- Next 12 months focus – upgrade watchlist capability
