## Reduction of the Risk for Proliferation of Weapons and Ammunition (SALW)

Organization for Security and  
Co-operation in Europe  
**Mission to Skopje**

#TargetingSecurity 

Go to [www.menti.com](http://www.menti.com) and use the code **53669**

---

Guess how many weapon/people in the planet.

---

There is **one gun** for every **ten people** in the planet.

---

**875 million** firearms, **75 %** in the hands of **civilians**

---

Each years, enough rounds is made to kill **every human twice.**

# Small Arms & Light Weapons on the WB

The weapons and OCGs involved in weapons trafficking primarily originate from the WB.

Sources:

- The previous conflicts
- Criminal activities

**3-6 mil.**

# Examples (Challenges)

- Attack on Border Police Station (2015)

- Attack in Charlie Hebdo (2015)

# Gaps in Border Security

## Identified problems:

- Physical and ICT security
- Lack of PSSM

# Gaps in Border Security

## Identified problems:

- Physical and ICT security
  - Lack of PSSM
  - Lack of procedure
  - Lack of knowledge
- Lack of quick information exchange

# Activities (PSSM)

1. Improving physical and ICT security
2. Developing of SOP
3. Training

Auswärtiges Amt

# Gaps in Border Security

## Identified problems:

- Physical and ICT security
  - Lack of PSSM
  - Lack of procedure
  - Lack of knowledge
  - Lack of quick information exchange

# Information exchange

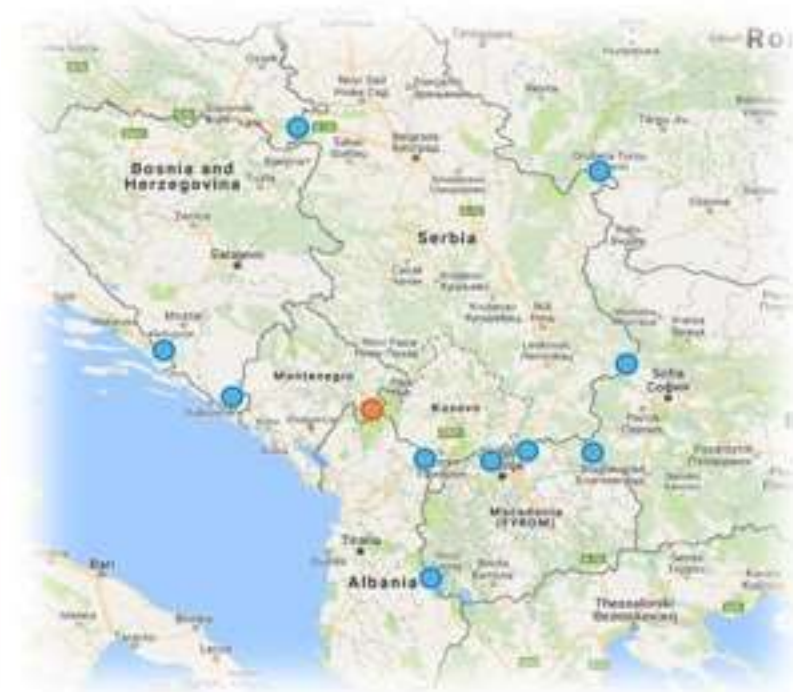

---

## The information exchange supports:

- Risk Analysis (screening, MO etc.)
- Joint operations
- Investigation
- Detection
- Prevention etc.

# Activities (Information exchange)

## 1. Identifying the appropriate channel

# Activities (Information exchange)

---

1. Identifying the appropriate channel
2. Enhancing the ICT capacity
3. Establish joint SOP (RA, SALW, etc.)
4. Training/ Staff exchange

5. Establish efficient real time data exchange mechanism among the WB countries and EU MSs.

# Conclusion (30 seconds to go 😊)

---

## Degrading the risk of weapon proliferation:

- Increased PSSM
- Increased cross-border information exchange (RA, detection, MO)
